2027 Colorado Large Group Access 3 and 4-Tier Prescription Drug List

Effective January 1, 2027

This PDL is applicable to the following health insurance products offered by UnitedHealthcare:

- Choice
- Choice Plus
- Navigate
- Navigate Balanced
- Navigate Plus
- Nexus ACO OA
- Nexus ACO OAP
- Nexus ACO R
- Nexus ACO RP
- Non-Differential PPO
- Options PPO

United Healthcare®

Please note: This Prescription Drug List (PDL) is accurate as of January 1, 2027 and is subject to change after this date. Your estimated coverage and copayment/coinsurance may vary based on the benefit plan you choose and the effective date of the plan.

Understanding your Prescription Drug List (PDL)

What is a PDL?

This document includes both brand-name and generic prescription medications approved by the Food and Drug Administration (FDA). Medications are listed by common categories or classes and placed in tiers that represent the cost you pay out-of-pocket. Then, they are listed in alphabetical order.

About this PDL

Where differences exist between this PDL and your benefit plan documents, the benefit plan documents rule.

How do I use my PDL?

You and your healthcare provider can check the PDL to help you select the most cost-effective prescription medications. This guide tells you if a medication is generic or a brand-name, and if there are coverage requirements or limits that apply. Bring this list with you when you see your healthcare provider. If your medication is not listed here, please visit your plan's member website or call the toll-free phone number on your member ID card.

What are tiers?

Tiers are the different cost levels you pay for a medication. Your plan sets a cost for each tier. This is how much you will pay when you fill a prescription. See page 4 for more information.

When does the PDL change?

PDL changes typically occur 2-3 times per year. However, changes that have a positive impact for you – such as coverage for new medications or cost savings – may occur at any time. You can log in to your plan's member website listed on your member ID card at any time to check your medication coverage and lower-cost options.

Why are some medications excluded from coverage?

We review treatments based on their total value, including how well they work, how safe they are, their cost and whether options are available to treat the same or similar medical conditions. Certain medications may not be covered or be subject to prior authorization (sometimes referred to as precertification) if your plan covers other lower-cost medications. For example, there may be a lower-cost covered option or an over-the-counter medication that works the same way. In some cases, the same product can be made by 2 or more drug companies, but greatly vary in cost. In these instances, only the lower-cost product may be covered.

You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to your plan's member website listed on your member ID card at any time to check your medication coverage. Talk to your healthcare provider to see if there are lower-cost options or over-the-counter medications available.

Who decides which medications are covered?

The UnitedHealthcare® Pharmacy and Therapeutics Committee, which includes both internal and external healthcare providers and pharmacists, meets regularly to provide clinical reviews of all medications. Using this information, senior UnitedHealth Group® healthcare providers and business leaders meet to evaluate overall health care value. They also set coverage and tier status for all medications.

Medication tips

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent for a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

What if my healthcare provider writes a brand-name prescription?

If your healthcare provider gives you a prescription for a brand-name medication, ask if a generic or lower-cost option is available and could be right for you. Generic medications are usually your lowest-cost option, but not always. For some plans, if a brand-name drug is filled, and a generic is available, your cost-share may be the copayment PLUS the cost difference between the brand-name drug and the generic.

Over-the-counter (OTC) medications

An OTC medication may be the right option for some conditions. Talk to your healthcare provider about available OTC options. Even though these medications may not be covered by your pharmacy benefit, they may cost less than a prescription medication.

What if I am taking a specialty medication?

Specialty medications are high-cost and are used to treat rare or complex conditions that require extra care and support. For most plans, these medications are managed through a specialty pharmacy. Take advantage of personalized support designed to help you get the most out of your treatment plan. To learn more, visit your plan's website or call the toll-free number on your member ID card.

If you're taking a specialty medication that is on a higher tier, call the toll-free phone number on your member ID card to talk with a pharmacist about finding lower-cost options.

Requesting a prior authorization

Before certain Prescription Drug Products are dispensed to you, your prescribing provider or your pharmacist is required to obtain prior authorization from us. Your prescribing provider can submit a request by phone to Optum Rx® or electronically by contacting us at **uhcprovider.com**. Your licensed physician may need to provide information on diagnosis and medication history and/or evidence in the form of documents, records or lab tests which establish that the use of the requested Prescription Drug Product meets plan criteria. You may determine whether a particular Prescription Drug Product is subject to prior authorization or step therapy requirements by visiting your plan's website or by calling at the toll-free phone number on the back of your member ID card.

If you disagree with a determination, you can request an appeal. The complaint and appeals process, including independent medical review, is described in the Certificate of Coverage under the Appeals and Complaints section. You may also call at the telephone number on your member ID card.

Reading your PDL

The PDL gives you choices. This allows you and your healthcare provider to decide your best course of treatment.

Tier information

Using lower-tier medications may lower your out-of-pocket cost. Your plan may have multiple or no tiers. Please note: If you have a high deductible plan, the tier cost levels may apply once you hit your deductible. If you have a plan with 3 Tiers, Tier 3/4 drugs will be placed on Tier 3. If you have a plan with 4 Tiers, Tier 3/4 drugs will be placed on Tier 4.

Drug tier	Includes	Helpful tips
Tier 1	$ **Lower-cost** Medications that provide the highest overall value. Mostly generic drugs. Some brand-name drugs may also be included.	Use Tier 1 drugs for the lowest out-of-pocket costs.
Tier 2	$$ **Mid-range cost** Medications that provide good overall value. Mainly preferred brand name drugs.	Use Tier 2 drugs instead of Tier 3 or 3/4, to help reduce your out-of-pocket costs.
Tier 3 and 3/4	$$$ **Highest-cost** Medications that provide the lowest overall value.	Many Tier 3 or 3/4 drugs have lower-cost options in Tiers 1 or 2. Ask your healthcare provider if they could work for you.

Drug list information

In this drug list, some medications are noted with programs next to them to help you see which ones may have specific coverage requirements or limits. Your plan sets how these medications may be covered for you.

Health Care Reform Preventive – This medication is part of a health care reform preventive benefit and is generally covered at no cost to you.

Health Care Reform Preventive with prior authorization – May be part of health care reform preventive benefit and available at no cost to you if prior authorization criteria are met.

Prior authorization – Requires your healthcare provider to provide information about why you are taking a medication before your plan can decide how it may be covered.

Quantity limits – The largest quantity of medication covered per copayment or in a defined period of time.

Specialty medication – Specialty medications treat complex or rare conditions and may require special storage and handling. You may have to get these medications from a specialty pharmacy.

Step therapy – Requires prior authorization and may require you to try one or more other medications before the medication you are requesting may be covered.

Questions

For the most current list of covered medications or if you have questions:

Call the toll-free phone number on your member ID card

Visit your plan's member website listed on your member ID card to:

- View your pharmacy benefit and coverage information, including prescription history
- View medication interactions and side effects
- Locate a participating retail pharmacy by ZIP code
- Look up possible lower-cost medication alternatives
- Compare medication pricing and options

And, if home delivery services are included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up reminders for refills
- Manage your account
