Updates to your Prescription Drug List

2027 Individual & Family plans

We are expanding your treatment options by adding more medications to our Prescription Drug List (PDL)*.

When making changes, we consider a medication's overall value, which is based on factors such as a medication's effectiveness, safety, cost, and the availability of alternative medications to treat the same or similar medical condition.

Prescription Drug List (PDL) update: effective as of 1/1/2027

- Prior authorization (PA): Requires your health care provider to provide information about why you are taking a medication before your plan can decide how it may be covered.
- Quantity limit (QL): The largest quantity of medication covered per copayment or in a defined period of time.

Medication	Type of change	States*	Effective date	Coverage rules or limits
bimatoprost 0.03% ophthalmic solution	Added to PDL	All states except CO	January 1, 2027	N/A
Skytrofa	Added to PDL	All states	January 1, 2027	PA

*MA follows E&I's PDL
