

## Working together to improve member care

Health care costs have been steadily rising, with experts projecting that costs will rise to 8 percent throughout 2025.<sup>1</sup> Balancing the rising cost of health care with the increasing benefit expectations of members is a growing concern for plan sponsors.

At UnitedHealthcare, we are committed to helping you offer affordable benefit solutions to the hard-working Americans you serve. With the largest provider network in the country, UnitedHealthcare offers an innovative solution to help reduce the cost of health care without sacrificing quality or member service.

Our shared administration model is a unique service model that allows plan sponsors that self-administer their benefit plans, or already have a third-party administrator, to access the UnitedHealthcare network and clinical programs. With our shared administration model, your members have access to the largest national, seamless network of health care professionals and hospitals in the country. Our network also includes behavioral health, as well as physical and occupational therapy providers.

## How it works

We take care of provider administration and services so you and your administrator can focus on delivering a superior member experience.

- Benefit design
- Eligibility
- Claim adjudication
- Member communications
- Member service and support

- Claim repricing
- Utilization management
- Discharge planning
- Provider payment
- Provider service and support

## The right care at the right time

Our shared administration model also includes programs and services to ensure medically necessary and appropriate use of health care, as well as help reduce readmissions and increase positive patient outcomes.

- Utilization management including clinical coverage review, inpatient care management and complex condition management
- Discharge planning and care plan management
- Optional suite of care management products to help your members manage their health
