

UnitedHealthcare Charter

UnitedHealthcare Charter® helps your employees build stronger connections with their primary care physician (PCP), who provides guidance and referrals to help them get the right care at the right time.

Healthier Outcomes

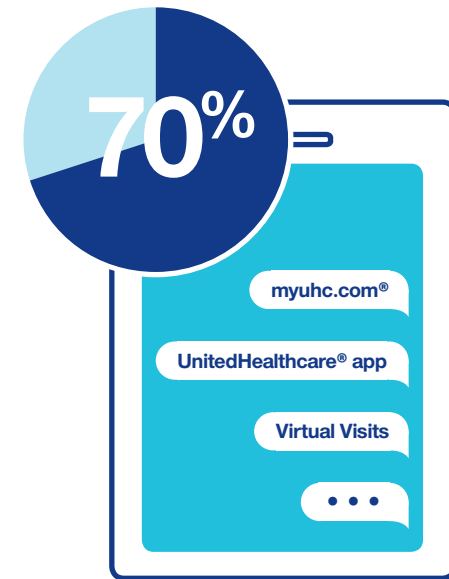

19% more adult members with a PCP had their recommended preventive screenings,² which may lead to healthier outcomes.

Lower Costs

Members engaged with a PCP had 10% lower risk-adjusted per member per month (PMPM) expense.¹

Convenient Experience

70% of consumers are using technology more to manage or support their health.³ Charter helps members stay connected with access to resources and services.
