

Emergency Contraceptive Services Only

\$0 Cost-share products and drugs for women^{1,2}

Effective: May 1, 2025

U.S. Preventive Services Task Force A & B recommendation medications and supplements

The health care reform law (Affordable Care Act) requires most health plans to cover birth control (contraceptives) for women at no cost. Certain Eligible Organizations may choose not to cover emergency birth control as part of their group health plan due to sincerely held religious beliefs or moral convictions. If you are a member of one of these groups, and the group has elected an optional accommodation, UnitedHealthcare will cover certain birth control products and services at no cost to you.

You can use your Contraceptive Services Only ID card to get those birth control products and drugs on this list that your group has designated for the optional accommodation for \$0 cost-share if they are:

- Prescribed by a network health care professional such as your doctor.
- Filled at a network pharmacy.

1 Please note this list is subject to change.

2 Always refer to your Contraceptive Services Only Booklet to determine your coverage for contraceptives. Where differences are noted, the Contraceptive Services Only Booklet will govern. For example, your Contraceptive Services Only Booklet may only cover medical birth control, and not pharmacy birth control.

3 In certain scenarios, your pharmacy may ask you to contact your healthcare provider for a prescription.
