

# Updates to your Prescription Drug List

## 2025 Individual & Family plans

We are expanding your treatment options by adding more medications to our Prescription Drug List (PDL). Additionally, we are making several enhancements to improve your coverage.

When making changes, we consider a medication's overall value, which is based on factors such as a medication's effectiveness, safety, cost, and the availability of alternative medications to treat the same or similar medical condition.

# 2025 Prescription Drug List (PDL) updates
