Understand your medication options

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly used terms and their definitions as well as frequently asked questions:

Brand-name drug means a Prescription Drug Product (1) which is manufactured and marketed under a trademark or name by a specific drug manufacturer; or (2) that we identify as a brand-name product, based on available data resources. This includes data sources such as Medi-Span, that classify drugs as either brand or generic based on a number of factors. Not all products identified as a "brand-name" by the manufacturer, pharmacy, or your physician will be classified as brand-name by us. A brand-name drug is listed in this PDL in all CAPITAL letters.

Coinsurance means a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

Copayment means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

Deductible means the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either 1 deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.

Drug Tier means a group of Prescription Drug Products that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a Prescription Drug Product is placed determines your portion of the cost for the drug.

Exception request means a request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the non-formulary drug when it is medically necessary for you to take the drug.

Exigent circumstances means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

Formulary or Prescription Drug List (PDL) means a list that categorizes into tiers medications or products that have been approved by the U.S. Food and Drug Administration (FDA). This list is subject to our periodic review and modification.

Generic drug means a Prescription Drug Product: (1) that is therapeutically equivalent to a brand-name drug; or (2) that we identify as a generic product based on available data resources. This includes data sources such as Medi-Span, that classify drugs as either brand or generic based on a number of factors. Not all products identified as a "generic" by the manufacturer, pharmacy or your physician will be classified as a generic by us. A generic drug is listed in this PDL in ***bold and italicized lowercase*** letters.

Medically necessary means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.

Non-formulary drug means a Prescription Drug Product that is not listed on this PDL.

Out-of-pocket costs means your expenses for health care benefits that aren't reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

Prescribing provider means a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

Prescription means an oral, written, or electronic order from a prescribing provider authorizing a Prescription Drug Product to be provided to a specific individual.

Prescription Drug Product means a medication or product that has been approved by the U.S. Food and Drug Administration (FDA) and that can, under federal or state law, be dispensed only according to a Prescription Order or Refill.

We will provide coverage under the pharmacy benefit for all medically necessary Prescription Drug Product which includes a medication that, due to its characteristics, is appropriate for self-administration or administration by a non-skilled caregiver. This definition includes: Inhalers (with spacers); Insulin; the following diabetic supplies: standard insulin syringes with needles; blood-testing strips - glucose; urine-testing strips - glucose; ketone-testing strips and tablets; lancets and lancet devices; and glucose meters (including continuous glucose monitors); disposable devices which are medically necessary for the administration of a covered outpatient Prescription Drug Product.

Benefits will be provided for point-of-sale over-the-counter contraceptives without cost sharing or medical management restrictions when obtained from a network pharmacy. A prescription will not be required to trigger coverage of these products. Benefits will also be provided without cost-sharing for over-the-counter aids and/or drugs used for smoking cessation, or medications that have an A or B recommendation from the U.S. Preventive Services Task Force (USPSTF) when prescribed by a network provider when medically necessary, as applicable.

Medications which, due to their traits, are administered or directly supervised by a qualified provider or licensed/certified health professional will be covered under the medical benefit when medically necessary.

Prior authorization means a process by your health insurer to determine that a health care benefit is medically necessary for you. If a Prescription Drug Product is subject to prior authorization in this PDL, your prescribing provider must request approval from your health insurer to cover the drug. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.

Step therapy means a specific sequence in which Prescription Drug Products for a particular medical condition must be tried. If a drug is subject to step therapy in this PDL, you may have to try 1 or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.

How do I use my PDL?

When choosing a medication, you and your doctor should consult the Prescription Drug List (PDL). It will help you and your doctor choose the most cost-effective prescription drugs. This guide tells you if special programs apply. Bring this list with you when you see your doctor. It is organized by therapeutic category and class. The therapeutic category and class are based on the AHFS Pharmacologic-Therapeutic Classification.

You may also find a drug by its brand or generic name in the alphabetical index. If a generic equivalent for a brand-name drug is not available on the market or is not covered, the drug will not be separately listed by its generic name.

This is the way Prescription Drug Products appear in the PDL:

1. A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs;
2. The generic name for a brand-name drug is included after the brand-name in parentheses and all lowercase bold and italicized letters;
3. If a generic equivalent for a brand-name drug is both available and covered, the generic drug will be listed separately from the brand-name drug in all lowercase bold and italicized letters; and
4. If a generic drug is marketed under a proprietary, trademark-protected brand-name, the brand-name will be listed in all CAPITAL letters after the generic name in parentheses and regular typeface with the first letter of each word capitalized.

Example:

Prescription drug name	Drug tier	Coverage requirements & limits
AVAPRO ORAL TABLET 150 MG, 300 MG, 75 MG <i>(irbesartan)</i>	4	
<i>irbesartan oral tablet 150 mg, 300 mg, 75 mg</i>	1	

If your medication is not listed in this document, please visit myuhc.com or call the toll-free member phone number on your member ID card.

Below is a list of drug tier numbers, abbreviations and designations used in the PDL as well as an explanation for each.

Drug Tier 1	Your lowest cost medications	M	May be covered under the medical benefit with prior authorization for HMO plans
Drug Tier 2	Your mid-range cost medications	SMCS	Specialty medication cost share may apply (for HMO plans, does not apply to injectables covered under the medical benefit)
Drug Tier 3	Your mid-range cost medications	E	Excluded from coverage unless covered as part of health care reform preventive
Drug Tier 4	Your highest cost medications	SM	\$0 cost-share by state mandate when condition appropriate
PA	Prior authorization required	IF	Two one-month fills are required before a three-month fill is available if allowed
QL	Quantity limit		
ST	Step therapy		
H	Part of Health Care Reform Preventive when age and/or condition appropriate		
SP	Specialty medication		
CM	Orally administered anti-cancer medication		

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2, 3 or 4, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

For orally administered anti-cancer medications on any tier, the total amount of copayments and/or coinsurance shall not exceed \$250 for an individual prescription of up to a 30-day supply. For high deductible health plans, the \$250 maximum only applies once the deductible has been met.

Check your benefit plan documents to find out your specific pharmacy plan costs, including any maximum dollar amount of cost sharing that may apply to a drug. Preferred medications are found in Tier 1, Tier 2 or Tier 3 and may vary depending on the medication and the condition it treats.

\$	Drug tier	Includes	Helpful tips
\$	Tier 1 Your lowest cost	Medications that provide the highest overall value. Mostly generic drugs. Some preferred brand-name drugs may also be included.	Use tier 1 drugs for the lowest out-of-pocket costs.
\$\$	Tier 2 and 3 Your mid-range cost	Medications that provide good overall value. A mix of brand-name and generic drugs.	Use tier 2 or tier 3 drugs instead of Tier 4 to help reduce your out-of-pocket costs.
\$\$\$	Tier 4 Your highest cost	Medications that provide the lowest overall value. Mostly brand-name drugs, as well as some generics.	Many tier 4 drugs have lower-cost options in tier 1, 2 or 3. Ask your doctor if they could work for you.

Please note: If you have a high deductible plan, the tier cost levels may apply once you reach your deductible. Refer to your enrollment and plan materials on myuhc.com, or call the toll-free number on your member ID card for more information about your benefit plan. For HMO plans, please reference your Schedule of Benefits for costs associated with medications covered under the medical benefit. For information related to specialty medication cost share, please refer to the Specialty Medication Cost Share (SMCS) section below.

When does the PDL change?

This PDL is required to be updated on a monthly basis.

- Medications may move to a lower tier or coverage may be added at any time.
- Medications may move to a higher tier when a generic becomes available.
- Medications may move to a higher tier, become non-formulary, or the dosage form covered may change, most often on Jan. 1, May 1, or Sept. 1.
- Medications may become subject to new or revised utilization management procedures, such as prior authorization, step therapy or quantity limits, at any time but most often upon FDA approval of the medication or its generic, Jan. 1, May 1, or Sept. 1.

When a medication changes tiers, you may have to pay a different amount for that medication.

The presence of a Prescription Drug Product on the PDL does not guarantee that you will be prescribed that Prescription Drug Product by your provider for a particular medical condition.

Utilization Management programs

Prior authorization required – Your doctor is required to provide additional information to us to determine coverage.

Quantity limit – Amount of medication covered per copayment or in a specific time period. Medications with quantity limits may be dispensed in greater quantities if medically necessary and prior authorized by UnitedHealthcare.

Step therapy – Requires you to try 1 or more other medications before the medication you are requesting may be covered.

Patient Protection and Affordable Care Act (PPACA) zero cost-share preventive care medication when age and/or condition appropriate – This medication is part of a health care reform preventive benefit and may be available at no cost to you when used for appropriate preventive purposes. For more information, please refer to the California Advantage and Essential HMO and PPO Prescription Drug List (PDL) PPACA Zero Cost-Share Preventive Medications list, which is available at myuhc.com. PPACA zero cost-share preventive care medications can be obtained, free of charge, at network pharmacies with a prescription from a prescribing provider. A prescription will not be required to trigger coverage of over-the-counter FDA-approved contraceptive drugs, devices, and products. PPACA zero cost-share preventive care medications are obtained at a network pharmacy with a prescription order or refill from a physician and are payable at 100% of the prescription drug charge (without application of any copayment, coinsurance, deductible) as required by applicable law under any of the following:

- Evidence-based items or services that have in effect a rating of "A" or "B" in the current recommendations of the United States Preventive Services Task Force
- Immunizations that have in effect a recommendation from the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention with respect to the individual involved
- With respect to infants, children and adolescents, evidence-informed preventive care and screenings provided for in the comprehensive guidelines supported by the Health Resources and Services Administration
- With respect to women, such additional preventive care and screenings as provided for in comprehensive guidelines supported by the Health Resources and Services Administration

A complete list of PPACA zero cost-share preventive care medications covered under the outpatient prescription drug benefit can be found at myuhc.com.

Designated specialty program – For certain Specialty Prescription Drug Products, we may direct you to a Designated Pharmacy with whom we have an arrangement to provide those Prescription Drug Products, which are identified in the Coverage Requirements and Limits column of the Prescription Drug List (PDL). If you choose not to obtain your Prescription Drug Product from the Designated Pharmacy, you may opt-out of the Designated Pharmacy program by contacting us at myuhc.com or the telephone number on your member ID card.

State mandated \$0 cost-share when condition appropriate – This medication is mandated to be covered at \$0 cost-share when used for any of the following conditions:

- Abortion*
- COVID-19

***Please Note:** If you have a high deductible plan, \$0 cost-share will not apply until your deductible has been met.

Specialty Medication Cost Share (SMCS) – Specialty medication cost share may apply. Please refer to the Pharmacy Schedule of Benefits for specific cost share. For HMO plans, does not apply to injectable medications covered under the medical benefit.

To learn more about a pharmacy program or to find out if it applies to you, please visit myuhc.com or call the toll-free member phone number on your member ID card. If you are a pre-enrollee and you would like to learn more about your specific pharmacy benefit, please contact your employer.

Drugs administered by a health care professional are generally covered under the medical benefit while drugs that are self-administered are covered under the pharmacy benefit. In order to obtain medical benefits for drugs that are administered by a health care professional, your provider may also be required to obtain a prior authorization. The provider may contact UnitedHealthcare for more information or uhcprovider.com.

Your right to request access to a non-formulary drug

This plan must cover all medically necessary Prescription Drug Products.

When a Prescription Drug Product is not on our PDL, you or your representative may request an exception to gain access to that Prescription Drug Product. To make a request, contact us in writing or call the toll-free number on your member ID card. We will notify you of our determination within 72 hours. If approved, we will cover the Prescription Drug Product for the duration of the prescription, including refills.

Urgent requests

If your request requires immediate action and a delay could significantly increase the risk to your health, or the ability to regain maximum function, call us as soon as possible. We will provide a written or electronic determination within 24 hours. If approved, we will cover the Prescription Drug Product for the duration of the exigency.

External review

If you are not satisfied with our determination of your exception request, you may be entitled to request an external review. You or your representative may request an external review by sending a written request to us to the address set out in the determination letter or by calling the toll-free number on your member ID card. The Independent Review Organization (IRO) will notify you of its determination within 72 hours.

Expedited external review

If you are not satisfied with our determination of your exception request and it involves an urgent situation, you or your representative may request an expedited external review by calling the toll-free number on your member ID card or by sending a written request to the address set out in the determination letter. The IRO will notify you of our determination within 24 hours.

If we deny your exception request, you may appeal. Please refer to your Evidence of Coverage for details. The complaint and appeals process, including independent review, is described under Section 6: Questions, Complaints and Appeals. You may also call the telephone number listed on your member ID card.

Requesting a prior authorization or step therapy exception

Before certain Prescription Drug Products are dispensed to you, your prescribing provider or your pharmacist is required to obtain prior authorization or step therapy exception from us. Your prescribing provider can submit a request by phone to Optum Rx® or electronically by contacting us at [ProviderPA.com](https://www.myuhc.com). The prior authorization staff of qualified pharmacists and technicians is available **from 5 a.m. to 10 p.m., PT Monday through Friday and from 6 a.m. to 3 p.m. PT on Saturday** to assist licensed physicians. Most authorizations are completed within 24 hours. The most common reason for delay in the authorization process is insufficient information. Your licensed physician may need to provide information on diagnosis and medication history and/or evidence in the form of documents, records or lab tests which establish that the use of the requested Prescription Drug Product meets plan criteria. You may determine whether a particular Prescription Drug Product is subject to prior authorization or step therapy requirements by going online at [myuhc.com](https://www.myuhc.com) or by calling at the toll-free phone number on the back of your member ID card.

An exception to a step therapy requirement will be granted if your prescribing provider submits necessary justification and supporting clinical documentation supporting their determination that the required Prescription Drug Product is inconsistent with good professional practice for provision of medically necessary covered services, taking into consideration your needs and medical history, along with the professional judgment of your prescribing provider.

If you are currently taking a Prescription Drug Product which was approved by UnitedHealthcare for a specific medical condition and that drug is removed from the Prescription Drug List (PDL) and the prescribing provider continues to prescribe the Prescription Drug Product for your medical condition, we will continue to cover the Prescription Drug Product provided that the drug is appropriately prescribed and is considered safe and effective for treating your medical condition.

In the case of a standard prior authorization or step therapy exception request, we will notify you, your designee, or your prescribing provider of the Benefit determination no later than 72 hours following receipt of the request. In the case of an expedited prior authorization or step therapy exception request based on exigent circumstances, we will notify you, your designee, or your prescribing provider of the Benefit determination no later than 24 hours following receipt of the request. If we fail to respond to you, your designee, or your prescribing provider within the prescribed time limits, the request is deemed approved and we may not deny the request thereafter.

If you disagree with a determination, you can request an appeal. The complaint and appeals process, including independent medical review, is described in the Evidence of Coverage under Section 6: Questions, Complaints and Appeals. You may also call at the telephone number on your member ID card.

How do I locate and fill a prescription through a retail network pharmacy?

UnitedHealthcare has a well-established network of pharmacies including most major pharmacy and supermarket chains as well as many independent pharmacies. For a listing of network pharmacies, call the toll-free phone number on your member ID card to help locate a network pharmacy near you or visit our website at [myuhc.com](https://www.myuhc.com) > *Pharmacies & Prescriptions* > *Find a pharmacy* for an up-to-date list.

Prescription delivery options

You have choices on where to fill prescriptions you take regularly. You have the option to fill at a retail pharmacy or have them mailed to your home. It's up to you. Optum® Home Delivery Pharmacy is one of your network options. There may be other options in your network. Sign in at [myuhc.com](https://www.myuhc.com) > *Pharmacies & Prescriptions* > *Find a pharmacy*.

How do I locate and fill a prescription through the mail order pharmacy?

UnitedHealthcare offers a Mail Order Pharmacy Program. Here's how to fill prescriptions through Optum Home Delivery.

E-prescribe

Ask your prescribing provider to electronically send new prescriptions to Optum Home Delivery for up to a 90-day supply. Or Optum Home Delivery can call your doctor for you.

Ordering prescriptions for home delivery

- **Online:** Visit myuhc.com > *Pharmacies Prescriptions* > *Rx profile* to set up an account. You will need to provide your payment method (credit card, debit card or bank account). Next go to *My prescriptions* tab and select the medication you want ordered through Optum Home Delivery.
- **Phone:** Call Optum Home Delivery at the number on your member ID card, any day, time.
- **Mail:** Download an order form at optumrx.com > *Information center*. Mail the completed form along with your prescription and applicable mail order pharmacy copayment. Make check or money order to Optum. No cash please.

New and refill prescription orders should typically arrive within 5 days from the date Optum Home Delivery receives the completed order.

How do I locate and fill a prescription at a specialty pharmacy?

You have two options:

- **Sign in** to myuhc.com > *Pharmacies & Prescriptions* > *Drug pricing*. The designated pharmacy will be listed below the drug price quoted.
- **Call** the number on your member ID card.

Designated pharmacies

If you require certain Specialty Prescription Drug Products, we may direct you to a Designated Pharmacy with whom we have an arrangement to provide those Specialty Prescription Drug Products. There are both retail and mail pharmacies in the Designated Pharmacy network. Note that not all contracted retail pharmacies are in the Designated Pharmacy network. Only retail pharmacies that are in the Designated Pharmacy network will provide coverage to these Specialty Prescription Drug Products. If you choose not to obtain your Specialty Prescription Drug Product from the Designated Pharmacy, you will be responsible for the entire cost of the Specialty Prescription Drug Product and no benefits will be paid.

In urgent or emergent circumstances, you may contact customer service by calling the telephone number on the back of your member ID card. This will allow you access to the retail network override process and allow the urgent or emergent prescription claim to pay at your local pharmacy for same day access if they have the Prescription Drug Product available.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit myuhc.com or call the toll-free member phone number on your member ID card for more current information.
